

SEASON ANALYSIS AND COMPARISON

As we close our 2025–2026 high season, we are pleased to share that we have achieved successful results across several key factors.

Below, we present some of our most relevant figures:

During our previous season, we participated in the transportation of more than 5,000 passengers. This figure was more than doubled during the current season, reaching over 13,000 passengers who used our services.

Deals with New Clients

As a company, we established new business relationships both nationally and internationally, increasing our client portfolio from 12 to 22. This enabled us to attract passengers from different parts of the world to explore the region, creating a multiplier effect on the local economy and generating both direct and indirect profitability and employment within the area.
